From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

They integrate lithium batteries, PCS, transformer, air conditioning system, and fire protection system within a single container, offering a comprehensive plug-and-play solution for large-scale power ...

Megapack is an all-in-one utility-scale energy storage system that is scalable to the space, power, and energy requirements of any site from 2 MWh to over 1 GWh. Megapack is optimized for cost, ...

Integrate it with your energy storage or PV system to capture excess renewable energy during peak production times. The system's scalability allows you to store the exact amount of energy needed, ...

In a significant advancement for sustainable energy solutions, a company in Jiangsu has successfully connected its 2MW/4MWh energy storage system to the grid. This project not only ...

With global energy storage capacity projected to grow 15-fold by 2040 according to BloombergNEF, EPC (Engineering, Procurement, Construction) has become the backbone of this ...

The energy storage inverter supports four-quadrant operation in both grid-tied mode and off-grid mode, which means the active power and the reactive power can be tuned to or showing to 4 characteristics:

This project involved customizing a 2MW/4MWh energy storage system for a cable factory, addressing the need for a 24-hour continuous power supply and peak shaving.
