What does the PU's Energy Storage Procurement Framework do?

The PU's Energy Storage Procurement Framework provides crucial motivation to the development of both demand and supply in this marketplace. Since the time of Assembly Bill 2514 and through 2021 California built a rich ecosystem for energy storage research and development, commercialization, and project deployment.

Why do companies bid for energy storage tenders?

Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of contracts worth millions for procurement of energy storage. Global Tenders stands out as the largest platform dedicated to tenders and government contracts.

What services are included in a solar PV contract?

The services included by the contractor shall include operation and maintenance of all components of solar PV systems for the life of the contract, as detailed herein.

What type of energy storage projects are recent contracts for?

Recent contracts are predominantly for much larger transmission-connected energy storage projects. Earlier energy storage contracts were significantly more expensive across all grid domains, and they generally reflect the cost reductions seen in the global storage industry.

The enclosed technical template language is intended to provide only example language for agencies to consider in the process of assembling a solicitation and ultimately a contract for privately financed on ...

The procurement matrix provides guidance on key elements to include in a Request for Proposals (RFP) for an energy storage project. It outlines information initiators should provide in the RFP, questions ...

Below are some resources to help your organization effectively navigate the solar contract development process with the goal of RFP and contract transparency, completeness, and ...

In the Roadmap, Staff indicates that New York will need approximately 12 GW of energy storage by 2040 to support a decarbonized and reliable electric system.
