Perfect for homeowners, installers, and solar professionals looking for a reliable ...

The RUiXU RX-12K is a high-performance split-phase hybrid inverter designed for residential, commercial, off-grid, and backup power applications. It seamlessly integrates solar ...

Equipped with a built-in solar charging controller with a maximum 200A charging current, this inverter ensures fast and stable battery charging, maximizing solar energy utilization.

The RUiXU RX-12K Hybrid Inverter is a powerful, all-in-one solar inverter designed for the U.S. split-phase market, supporting 120/240V output, whole-home backup, and flexible battery configurations.

In addition to solar panels, Ruipu features high-performance solar inverters designed to convert DC electricity generated by solar panels into usable AC electricity for homes and businesses.

This inverter is suitable for flexible configurations in both home and commercial systems, supporting various lithium and lead-acid batteries. ALL-IN-ONE HYBRID INVERTER Capable of ...

Built specifically for off-grid homes and commercial users, it is compatible with 48V storage batteries and features a powerful charging controller and parallel capability to meet higher power demands.

Perfect for homeowners, installers, and solar professionals looking for a reliable hybrid inverter that balances performance, safety, and flexibility in both on-grid and off-grid applications.
