---

Russia nuclear energy firm Rosatom has incorporated Rosatom Energy Storage Solutions (RENERA) to develop and trade lithium-ion traction and stationary batteries.

Renera LLC, the energy storage business of Russian state nuclear energy corporation Rosatom, has taken a step towards building a "Russian gigafactory" in the country's Kaliningrad Region.

Three large factories for the production of lithium-ion batteries are being built in Russia. This was announced at the V Congress of Young Scientists in "Sirius" by the Head of the ...

The plant for the production of lithium-ion cells and energy storage systems - the "Russian gigafactory" - will operate at the site of the Baltic NPP as early as 2026. The construction of the facility will ...

The announcement follows the Russian military's seizure of Shevchenko, a village in Ukraine's eastern Donetsk Region that is home to one of the country's largest lithium deposits.

Russian nuclear energy giant Rosatom has acquired a 49% stake in Enertech International, a South Korean lithium-ion battery specialist, and has announced plans to build a ...

Rosatom's Fuel Division, managed by TVEL, has launched pilot production at Russia's first lithiumion energy storage factory, "gigafactory" in the Kaliningrad Region. The facility marks a ...

"The launch of the Kaliningrad Gigafactory is an industrial breakthrough for Russia and a huge contribution to the foundation of national technological sovereignty.
