Under a solar lease, a third-party owner (typically a solar company) ...

Solar leasing is a way to get solar power by renting instead of buying solar panels. Homeowners make monthly lease payments. A solar lease can disrupt a home sale.

Leasing solar panels can make solar energy more accessible, but it may come with long-term costs and restrictions. Learn how it works and whether it's right for you.

Want to go solar, but you're not sure how? Find out whether leasing or buying solar panels is right for you and learn the pros and cons of each.

Deciding whether to lease or buy solar panels? Our guide covers the key differences, pros, and cons of leasing versus buying to help you make the best decision.

Leasing with Tesla is the most affordable way to get solar and Powerwall. You make a fixed monthly payment for a system that Tesla installs, owns and services. Learn more about how it works and ...

Under a solar lease, a third-party owner (typically a solar company) installs solar panels on your property and then sells you the electricity produced at a predetermined monthly rate.

Thinking of buying a home with solar panels? If they're leased, they could delay your deal--or cost you more than you expect.
