And while they promise free or low-cost solar panels, or offer you huge rebates, tax credits, or utility incentives to pay for those solar panels, those are lies.

As solar grows in popularity, more scammers are targeting consumers. Here are three common solar scams to look out for, how to avoid them and how to report solar scams.

Con artists use misleading sales tactics and lies to trick homeowners out of money and personal information. If you've received an offer for "free solar panels," it could be a scam. Always...

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer.

Scams are unfortunately common in the solar industry. ...

Green energy scams include "free" solar panel offers, bogus investment opportunities, and impostors posing as electricity companies. Scammers may fake green energy calls, knock on ...

If solar panels cannot work on your property or if you cannot afford to purchase solar panels up front, there are several common alternatives worth considering:

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...
