With decades of experience in the solar energy industry, we design and manufacture durable, high-performance pallets that ensure your solar products are protected from production to installation.

PVpallet solar panel pallets are designed specifically for solar modules--not adapted from generic pallet designs. Unlike traditional wood pallets and single-use packaging, PVpallet pallets provide consistent ...

PVpallet builds reusable, purpose-built packaging for solar modules, trackers, and BOS components. Our solar module pallets and collapsible bulk bins are engineered for real jobsite ...

Ensure safe transport and installation of your solar panels with PalletOne's innovative solar pallets. Discover key trends, risks, and the benefits of proper packaging.

While plastic is a useful solar module packaging material, its overuse poses sustainability and cost challenges. Responding to the global call for reducing plastic waste, UFP Packaging is committed to ...

Introducing the Solar-Flex Pallet X-SE by PVpallet for the EU-Market, the pioneering solution that's transforming the solar industry. This innovative pallet is the first of its kind, boasting adjustable, ...

We appreciate your efforts to ensure all solar modules are stacked on secure pallets or dunnage and are in good condition, following the best practices outlined here to plan for maximum efficiency.

Industrial packaging engineered for solar panels and components. Durable, cost-efficient solutions to protect renewable energy equipment during shipping.
