The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other equipment in the computer room. The power generated by solar energy is used by the DC load ...

Power Your Community With Solar Microgrid Technology? We are a premier solar microgrid energy storage provider, specializing in power station solutions and off-grid energy management.

The initiative will involve the expansion of solar farms, battery storage systems, and energy efficiency programs to support domestic and commercial energy needs. Samoa currently ...

The plant, located at Faleolo International Airport, operates under a 20-year power purchase agreement with the state-owned Electric Power Corporation. Samoa has faced mounting ...

This is the first facility of its kind to be set up in Samoa and the region and will benefit up to 5,000 families on the north-western side of the island of Upolu and will save the country up to 1.2 ...

Discover the power of our Hybrid Energy Mobile Wireless Station, offering seamless, energy-efficient telecom base site solutions. Designed for versatility with solar, wind, and diesel

We provide cutting-edge photovoltaic technology that enables efficient power generation and reliable energy supply for various scenarios including remote power, emergency power, grid-tied ...

The Solar for Samoa project set the benchmark for quality solar power projects in the South Pacific. The two sites will provide up to 27% of the network power during peak output.
