SgurrEnergy has secured the contract to develop Sri Lanka's first 100 MW solar photovoltaic project with a 12 MWh battery energy storage system (BESS). It will be implemented in ...

The state-owned firm issued the request for proposals (RFP) on 30 July, seeking companies to build, own and operate large scale battery energy storage system (BESS) projects in ...

Solar energy battery storage Sri Lanka rollout approved for 16 substations Sri Lanka has moved closer to strengthening its renewable energy infrastructure with Cabinet approval granted for ...

This article explores what ESS is, why it's relevant for Sri Lanka, and how businesses and homeowners can benefit from integrating storage into their energy systems.

Cabinet approval has been granted to award tenders for the installation of a 160 MW / 640 MWh Battery Energy Storage System (BESS), aimed at enabling the maximum integration of solar ...

This report delves into the transformative phase of Sri Lanka's energy sector, highlighting the growing adoption of renewable energy sources like solar and wind power.

From an environmental perspective, energy storage plays a key role in helping Sri Lanka meet its climate goals. By optimizing clean, renewable energy and reducing carbon emissions, it ...

Sri Lanka aims to raise its renewable energy share to 40% by 2030, necessitating Energy Storage Systems (ESS) for effective grid integration and balancing of diverse renewable sources.
