Qingdao Jorya New Material Co., Ltd is mainly specialized in OEM steel components for Solar Tracking System. Jornem's main fields are custom metal fabrication services, such as Ground Screws, Screw ...

Produce high power and high performing solar panels using custom designed quality electrical connectors and non-electrical solar panel and component stamping from Wiegel.

We manufacture the precision metal stamped parts and metal bending you need to sustain your projects long into the future. Our more than 55 years of experience as an ISO-9001 certified company speaks ...

In the solar sector, where sustainability, efficiency, and reliability are key, our metal stamping capabilities play a critical role. We manufacture a variety of components, including solar panel brackets, frames, ...

And here's where automatic stamping becomes the unsung hero. Imagine trying to build a Lego castle without those tiny connector pieces. That's exactly what happens when manufacturers underestimate ...

Metal stamping is used to produce the mounting brackets, clamps, and other hardware needed to securely install solar panels. These components must be precisely manufactured to ...

Metal stamping solar energy equipment is a precise art. It requires state-of-the-art equipment and a commitment to excellence. At Standard Die, we custom fabricate all the metal parts you need through our in-house metal stamping services. We craft a range of common components across the alternative energies industry, including: 1. Aluminum frames. ...
