Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

Optional integrated battery cabinets for longer back-up time High seismic withstand capability - for reliability in adversity

It combines the telecom rectifier, battery, and supporting equipment to deliver consistent dc power to your telecom devices. ESTEL's product lineup includes the Telecom Rectifier System, ...

Available in different configurations, Delta OutD cabinets are designed to protect equipment from external threats in all climates from the tropics to the arctic.

Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets. Modular capability helps future ...

Whether you need a compact fiber distribution unit or a large UPS enclosure, each outdoor telecom box can be configured to support integrated power, fiber optic, and data systems within our facility.

Outdoor Cabinets Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments.
