---

Headquartered in Switzerland, we deliver scalable, site-ready solutions that integrate battery technology, power conversion and intelligent energy management into one reliable system.

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's ...

Let's cut to the chase: if you're researching energy storage solutions, you're probably an engineer, a project manager, or someone tired of "same-old" battery tech. Swiss energy storage container ...

With state-of-the-art technology, standard components and our own Energy Management System (EMS) developed in Switzerland, we guarantee the highest levels of efficiency and flexibility.

The 1000kW / 2150kWh Containerized Energy Storage System is a highly scalable and adaptable energy storage solution for various off-grid and grid applications with demonstrated reliability, ...

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's largest.

Intilion has delivered the grid-scale battery energy storage system (BESS) from Asia; via Rotterdam, inland waterways, and a warehouse near the project site. German system integrator ...

We're excited to take an important step in Switzerland's energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is ...
