Who makes Swiss clean battery?

When building the factory and equipping it with the necessary production facilities, Swiss Clean Battery draws on established and renowned partners. Jonas & Redmann (Berlin), Munters (Hamburg), Dalex (Knowledge) and Metha Bau (Amriswil), for example, are on board.

What are energy storage batteries used for?

Energy storage batteries designed for renewable energy systems, widely applied in solar and wind power. Reliable performance, scalable capacity and intelligent BMS for stable energy supply. Reliable battery packs for infusion/syringe pumps, patient monitors, ventilators, portable oxygen concentrators, NPWT/suction units and handheld diagnostics.

Why should you choose Swiss clean battery?

The high standardization of factory construction promotes economies of scale and rapid implementation, so that the total capacity of 7.6 gigawatt hours will be reached in just a few years. When building the factory and equipping it with the necessary production facilities, Swiss Clean Battery draws on established and renowned partners.

What is the market potential for stationary energy storage systems?

The market potential for stationary energy storage systems is enormous: according to current calculations, the demand for buffer storage systems is >100GWh (-> Source Fraunhofer). The battery itself is approx. 130x180x25mm in size and has a modular design. The cell design is prismatic and is surrounded by a stainless steel housing.

Find the most complete and detailed compilation of the best energy storage companies. The catalogue consists of over 40 top providers of energy storage solutions.

Find the top Energy Storage suppliers & manufacturers in Switzerland from a list including Innolith AG, Proventia & Designwerk Technologies AG

We have the only exclusive license to date for mass production of these solid-state batteries and an additional license to market industrial storage systems in Switzerland and Germany. With us, the ...

The Swiss energy storage lithium battery industry isn't just selling products--it's crafting a blueprint for sustainable tech. From chocolate factories to robot-staffed labs, they're proving that ...

Swiss energy storage battery frame manufacturer
