Mozambican regulator Autoridade Reguladora de Energia (Arene) has issued a request for proposals (RfP) for independent power producers (IPPs) to develop and install solar PV and battery energy ...

Globeleq, Source Energia and Electricidade de Mo&#231;ambique (EDM) have started construction on the first IPP in Mozambique to integrate utility-scale energy storage with a solar PV plant.

This article explores the technical innovations, economic benefits, and environmental impacts shaping this emerging sector, complete with real project data and market analysis.

As we approach Q2 2025, Mozambique"s draft National Storage Strategy aims to triple grid-connected storage capacity while establishing local battery assembly plants.

Discover how Mozambique is leveraging cutting-edge energy storage solutions to stabilize its grid and attract foreign investment. Explore market opportunities, technical innovations, and the role of ...

"The Cuamba Solar Power Plant project aims to increase energy availability in the country through both public and private investments, with growing contribution from renewable energy ...

ransition to a sustainable energy system. Battery systems can support a wide range of services needed for the transition, from providing frequency response, reserve capacity, black-start capability and ...

Mozambique"s Balama Graphite Mine, operated by Australia-based Syrah Resources, is set to redefine sustainable mining with a new hybrid power system. The project, integrating solar ...
