We all know the fastest possible speed in the universe is the speed of light, but what about the fastest production car, fastest land animal, fastest missile, or fastest supercomputer? ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The fastest cars in the world come from Hennessey, Bugatti, Koenigsegg, SSC, and Devel, with a top speed of 347 mph (550km/h).

I am always pleased with my interactions with FasTest. They always do anything and everything in their power to provide me with the fastest delivery times possible, even on custom solutions.

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

Get detailed specs and pricing for Sunmaygo's solar containers. Compare models, battery options, and calculate ROI. Find the best mobile solar power system for your needs.

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular design for easy ...

With a built-in hybrid solar inverter, the Powerwall 3 is the first Tesla battery to connect directly to the DC output of solar panels. The newest Powerwall comes with the same 13.5 kWh of storage capacity but ...
