Does the development strategy of the Yangtze River economic belt promote synergistic governance?

The development strategy of the Yangtze River Economic Belt can promote synergistic governance of pollution control and carbon reduction. The synergistic governance effect of pollution control and carbon reduction in the development strategy of the Yangtze River Economic Belt has heterogeneity in urban size and resource endowment.

Why is leveraging policy effects important in the Yangtze River economic belt?

In the historical confluence of the "Dual Carbon" goal and the development strategy of the Yangtze River Economic Belt (YEB), leveraging policy effects is crucial for synergistically promoting pollution control, carbon reduction, and high-quality economic development.

What is the Yangtze River economic belt development plan?

In September 2016, the Outline of Yangtze River Economic Belt Development Plan (hereinafter referred to as the Planning Outline) was officially issued and published. It establishes a new development pattern for the YEB and serves as a programmatic instrument to advocate for the development of the YEB as a significant national strategy.

Does China's Yangtze River economic belt strategy reduce urban industrial wastewater discharge?

This study employs China's Yangtze River Economic Belt strategy as a quasi-natural experiment to investigate the impact of prioritizing green development on economic growth. Our empirical findings show that the strategy significantly reduces urban industrial wastewater discharge.
