Who makes Trina Solar panels?

Solarwyse carries Trina Solar Panels, one of the world's most experienced solar manufacturers. Trina Solar Panels began in 1997, and in the years since, has grown into one of the top manufacturers of solar energy solutions and PV modules.

Are Trina Solar panels good for small roofs?

With some of their latest panel models expected to attain outputs of up to 600W, Trina panels also make it easier for homes with small roofs to enjoy max solar power. Trina Solar offers CEC-approved tier 1 solar panels with an impressive efficiency rating. The models we will discuss in this Trina solar panels review include:

Is Trina Solar a good company?

This shows Trina is a leading solar energy manufacturer with a good track record. The company is now part of the Silicon Module super league - a group comprising the six biggest solar panel suppliers in the world PV market. Besides their Chinese manufacturing capacity, Trina Solar has plants in Vietnam and Thailand.

How much power does a Trina Solar panel produce?

The TallMax 5BB, 385-410W - TSM-DE15H (II) can achieve up to 410W with a 20.2% efficiency, and the TallMax 345-385W - TSM-DE14H (II) can attain a 385W output with a 19.9% efficiency. The high efficiency and power output of Trina Solar panels means that homes don't need many panels on the roof.

Trina eignen sich aufgrund der hohen Spannungen besonders für eher kurze Strings. Insbesondere, wenn es auch noch Schatten gibt. Dafür haben die den Nachteil, dass längere ...
