Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

Anglo-Tunisian group SoleCrypt announced plans for a 60 MW PV plant in Tozeur, part of a broader initiative to connect eventually to the Medusa submarine cable, enhancing Tunisia's ...

This article explores the latest developments in Tunisia's battery storage projects, technological innovations, and how companies like EK SOLAR contribute to this dynamic market.

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions. The solar array is mounted directly onto the container, and ...

We are committed to excellence in solar container and energy storage solutions. With complete control over our manufacturing process, we ensure the highest quality standards in every solar container ...

With rising demand for portable energy solutions - from solar generators to lithium battery systems - Tunisia's market has evolved rapidly. This guide reveals key locations, industry trends, and tips to ...

Tunisia's Ministry of Industry, Mines and Energy has opened a tender that will award two solar projects with a combined capacity of 200 MW to feed electricity into the national grid.

The mobile solar container contains 200 PV modules with a maximum nominal power rating of 134kWp, and can be extended with suitable energy storage systems. Electricity price: EUR0.15/kWh.
