Will a new battery storage facility strengthen Ukraine's grid?

Sept. 10, 2025. (Bohdan Nazarenko/DTEK) Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said.

Does EBRD support Ukraine's energy security?

The European Bank for Reconstruction and Development (EBRD) is supporting Ukraine 's energy security by lending EUR22.3 million to private Ukrainian energy company Power One for the financing of new peaking generation capacity and battery energy storage systems (BESS).

How will Bess impact Ukraine's energy supply chain?

Meanwhile, integrating BESS will significantly enhance energy diversification and allow for flexibility in the energy supply chain. Incorporating both technologies will help to stabilise Ukraine's grid during peak demand periods, reducing the frequency and duration of power outages and ensuring uninterrupted electricity supply.

Why are Ukraine's energy facilities being destroyed?

Ukraine's energy facilities have faced a campaign of destruction since the start of Russia's full-scale invasion, with the attacks intensifying in October 2025.

Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation ...

But physics doesn't care about missiles: you can't run a renewable grid without large-scale storage. Ukraine is learning this the hard way. The European Bank for Reconstruction and ...

Ukraine's energy storage market is exploding amid crisis. Explore key drivers, investment opportunities in utility, C& I, and residential segments, and strategies for entering this high-growth frontier.

Energy storage brings key opportunities and much-needed operational flexibility into Ukraine's energy system. Investors should view this as a strategic market and regularly monitor regulatory updates to ...

DTEK and Fluence have begun commissioning Ukraine's largest battery energy storage system, a 200 MW/400 MWh installation spread across six sites that represents one of the biggest ...

With significant projects already underway and growing demand for grid flexibility, Ukraine is poised to make

energy storage a cornerstone of its sustainable energy future.

In September, DTEK, in partnership with U.S.-based Fluence Energy B.V., launched Ukraine's first large-scale energy storage complex. The facility can store up to 400 megawatt-hours ...

Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected ...
