LongXing outdoor power cabinet provides flexible size options, offers the ideal enclosure solution to build the whole base station inside.

The distribution cabinet can maintain stable performance in high temperature, low temperature, humid or dry environments. This provides convenience and assurance for users to use in different environments.

Our battery enclosures can be pole-mounted or ground-mounted and are suitable for indoor and outdoor applications. If you are not sure which enclosure you should choose, please don't hesitate to email ...

Built with durable materials, the cabinet ensures long-lasting performance and reliable power delivery. As industries adopt more sophisticated energy solutions, inverter control cabinets from ...

It is widely used in commercial outlets, villas, residential areas, and civil places with high power consumption and multiple power usage that require independent metering of AC 380V/220V voltage ...

The enclosure integrates a high-efficiency inverter and a PDU (Power Distribution Unit) for reliable power distribution, overload protection, surge protection, and fault isolation.

All-in-one 5kW Energy Storage cabinet with built-in inverter and LiFePO4 battery support. Ideal for home backup, off-grid, and small commercial use.

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust ...
