Yingli was one of the largest manufacturers of PV products in China as measured by annual production capacity, with an annual production capacity of 400 megawatts of polysilicon ingots and wafers, 400 ...

Yingli, founded in 1998, is a solar panel manufacturer based in Baoding. On this page, you can find a complete list of solar panels from Yingli and compare models side-by-side.

Yingli polycrystalline 130W PV solar panel. Carefully sealed against moisture and connected to a waterproof junction box, these 12V photovoltaic panels are suitable for a range of ...

In 2023 and 2024, its photovoltaic module bid volume and shipment volume ranked in the top ten of the industry. Headquartered in Baoding, Hebei, the company has an industrial layout across multiple ...

Chinese engineers seem to really like bifacial modules: half of Yingli Solar products are panels with an active rear side which are called Panda. The company is known for high-efficiency ...

The money will allow China to strengthen its position as the world's largest maker of solar panels used to generate electricity from the sun's rays. Yingli and its Chinese competitors shipped 43 percent of the ...

What modules does Yingli offer? Yingli does not offer many options, with only two mono PV modules to choose from, the YLM 120 half-cut cell all-black panel and the YLM 144 half-cut cell monofacial panel.

The company rapidly expanded from a small startup to become the world's largest solar panel manufacturer by shipment volume in 2012 and 2013, producing over 3 GW annually at its peak.
