Interested in buying used or refurbished solar inverters? We ship globally. What is the refurbishment process for used solar panels?

Should you buy used solar panels?

Used solar panels could be less efficient due to wear and tear, resulting in reduced energy production. Some might come with expired warranties, leading to out-of-pocket expenses should issues arise.

Can photovoltaic panels be recycled?

Most research on photovoltaic panels is focused on recovering solar-grade silicon to make recycling economically viable. That skews the economic incentives against recycling. The National Renewable Energy Laboratory estimated that it costs roughly \$20 to \$30 to recycle a panel versus \$1 to \$2 to send it to a landfill.
