---

It is the first revolutionary &quot; AC/DC integration&quot; minimalist structure, with battery units and PCS integrated into one cabinet, which has subversively improved the efficiency, performance, safety and ...

The HJ-ESS series energy storage cabinet, introduced by Huijue Group, features an integrated design that combines the battery, battery management system (BMS), energy management system (EMS), ...

The 215kW Intelligent Energy Storage Liquid-Cooled Integrated Cabinet is specifically designed for commercial and industrial scenarios. It uses liquid-cooling temperature control technology to ...

EFIS-D-W100/215 is specially designed for small-scale industrial and commercial energy storage applications. It features a modular, factory pre-installed design ...

It provides highly efficient and reliable energy flow solutions for AC/DC hybrid grids, flexible interconnection, ultra-fast EV charging, and energy storage scenarios.

This network architecture can realize interconnected power control and mutual support between AC/DC microgrid subsystem and the DC distribution center subsystem, through the control of low-voltage ...

Our product lineup includes AC-DC EV charging modules, DC-DC EV charging modules, wallbox EV charging modules, pedestal-mounted modules for public ...

5MWh AC and DC Integrated Energy Storage System. This new system integrated proprietary 314Ah cells and standardized 2P52S battery ...
